4 Marble Springs Outdoor Educational Trail

Just .06 miles from the Tail of the Newt trail ride just past the Marble Springs Elementary School is the extremely interesting and educational walking trail. It winds for a bit over a mile through the forest along the outflow of the historic Marble Springs. The area is marked with educational information describing the types of plants, trees and vegetation along the walk.

There are also picnic tables and an outdoor covered area that is a great place to have a gathering or just enjoy nature on a rainy day.
